## **About the Speaker**

Provide evidence-based, state of the art Digital Implant dentistry and periodontal care to patients that exceeds standards of patient care and compassion.

- Launched 2 multi-million-dollar state of the art practices in last 10 years in two different locations near Sacramento, CA.
- Practice limited to Periodontics and Implant dentistry with 50 + referring dentists running highly profitable and busy periodontal practices
- Conducted more than 15 Hands On workshops, 50 lecture presentations and numerous case presentation on different aspects of Digital Dentistry, Guided implant surgery and concepts of periodontal treatment
- Avid Volunteer for providing free dental service to the underserved population through various organizations like CDA cares and California Care Force- 40 + hours per year.

Eastman Institute of Oral Health University of Rochester Medical Center NY Certificate in Periodontics. School Of Public Health , Loma Linda University CA Masters in Public Health. K.L.E.S. Institute of Dental Sciences , India Bachelor of Dental Surgery

## **Course Objectives:**

- 1- Discussing top trends in digital dentistry and how to make the transformation to digital workflow work for you, your team, and your practice.
- 2- Digital integration strategies that have proven successful and practical for the dentist and the team. Case studies will be used to demonstrate how to implement digital dentistry on a personalized level that works for your practice.
3. Going over Digital workflows using Guided surgery Vs Navigation Surgery.
4. Why Restorative planning is the key better surgical outcome better restorative results
5. Want more referrals START TEMPORIZATON. Discuss concepts of different ways to temporize single unit to full arch cases. Digitally plan the process of temporization.
6. Going over the concept of ALL on X , comparing the conventional technique to Guided Surgery with Guided Prosthetics and now using Guided surgery with PHOTOGRAMMETRY.
