

NNDS General Membership Dinner Meeting

“Treatment of Anterior Discoloration”

Presented by: Nathaniel Lawson, DMD, PhD

Associate Professor, UAB School of Dentistry

Director, Division of Biomaterials/ www.drnatelawson.com

Thursday, November 14, 2024
Cocktails 6:00 pm / Dinner 6:45 pm

Atlantis Casino Resort and Spa

3800 S Virginia St, Reno

2nd Floor Conference Center

Major Sponsor: **3M ESPE**

Course Description: Discoloration of anterior teeth can result from a disruption in mineralization of the forming tooth or from the process of caries on the formed tooth. Both dysmineralization and white spot lesions may be an esthetic concern for many patients. Resin infiltration and microabrasion are 2 different conservative treatments for these discolorations. This lecture will review clinical tips for case selection for both types of treatment as well as the steps to perform both techniques.

Course objectives

1. Review the clinical signs to determine which cases will have the best chance for success with microabrasion or resin infiltration
2. Review the clinical steps to perform microabrasion and resin infiltration
3. Present clinical cases with both treatments

Registration Fee: \$45 for Members / \$125 for non-members

Register online: <https://bestcardteam.com/NNDS/monthlydinner.php> or scan the QR code

Call in Registration permitted, pre-registration preferred

Registration Deadline: November 12, 2024

Eligible for refund up to 48 hours prior to the start of the event

2.5 CEU's Credited at the Completion of this lecture. Dr. Lawson also presenting a 6 CEU course on Friday, November 15+, 2024. See website for flyer and registration.
